

Modern World History Interactive Map Project

Basic Requirements: 4 historical examples that illustrate your theme, 1 regional comparison for each example, 1 contemporary connection for each example = 12 content slides are the *minimum*

For each topic (historical examples, regional comparisons, contemporary connections), you should include at least one image. Search Google images with usage rights set as “labeled for noncommercial reuse.” For your images, you must include text summarizing and explaining the image. At minimum, include the outline of an analytical paragraph.

All of the content slides will be linked to a world map, which is your home screen. This home screen will emphasize the centrality of geography (recall Jared Diamond!) in the study of world history.
